JUMPIN

IMPACT & SOCIAL ROI | 2026

Measurable Impact. Lasting Return.

Every donation is an investment in a career, a household income and a stronger Israeli workforce

Jumpin is an Israeli social-impact organisation, founded in 2018 with the support of the Israel Innovation Authority and UJIA. We turn training into employment for people who are often left outside the job market, and we measure success the way an investor would: by outcomes, not activity. Did people get hired, did their income rise, and do employers come back for more?

1 How We Define Impact

Scale & Reach

820+ — Job placements

10 — Populations with dedicated expertise

Employment Outcomes

75.6% — Placement rate

+23% — Average salary increase

Trusted Partnerships

400+ — Employers in our hiring network

5 — Government ministries and agencies

Populations we have built deep expertise in serving

Women | Women exiting prostitution | Haredi society | Arab society | Ethiopian Israelis | People aged 50+ | People with disabilities | Periphery residents | Reservists | Wounded veterans

2 The Return on Your Investment

01 Your support — Funds outreach, support and scholarships

02 Training — Market-aligned tech, digital and AI skills

03 A job — Placement with employers who need talent

04 Higher income — +23% on average, stronger households

05 Wider return — Less dependence on welfare, more tax revenue, stronger communities

3 The Opportunity

DOUBLE YOUR IMPACT

Every donation is matched by government funding

Philanthropy builds on programmes, partners and employers already in place, so each donation reaches twice as many people on their way into high-tech jobs.

₪15,000 — average cost per job placement

1 : 1 — every ₪1 you give unlocks ₪1 of government funding

34% — first-year Social ROI per placement

4 Where Your Investment Goes

Women exiting prostitution
3-year programme | Ministry of Welfare, Leshanot Olam, Shusterman Foundation

People with disabilities
PRETECH pre-tech pathway | Ministry of Labor + Rashi Foundation

Ethiopian-Israeli job seekers
